

January 10, 2005

Mr. Nabil S. Fayoumi U. S. EPA - Region 5 77 West Jackson Boulevard (SR-6J) Chicago, Illinois 60604-3590

Re: Sauget Area 2 Site - October 3, 2002 Unilateral Administrative Order (UAO) Groundwater Operable Unit Monthly Report; December 1 - December 31, 2005 Reporting Period

Dear Nabil:

Attached is the Monthly Report for the Sauget Area 2 Site October 3, 2002 Unilateral Administrative Order (UAO) - Groundwater Operable Unit. This submittal is in fulfillment of the monthly reporting requirements of the UAO, Section XII, paragraph 62, Progress Reports. This report is for the period December 1 – December 31, 2005.

Sincerely,

Steven D. Smith

Project Coordinator

Cathleen Bumb - Solutia

Linda Tape - Husch & Eppenberger

Richard Williams - Solutia

Sauget Area 2 Site - Sauget, Illinois

October 3, 2002 UAO – Groundwater Operable Unit

Status Report

Date of Report:

January 10, 2005

Period Covered:

December 1 - December 31, 2005

Work Performed During the Reporting Period

General Site Work

- The Pre-Final Inspection was conducted on June 28, 2005. The only item that was identified as requiring completion before the Final Inspection was a pressure test on the discharge pipeline. That test was successfully completed on July 14th. On July 19th, the Agency was requested by e-mail to complete a Final Inspection and issue a Construction Complete notice. The Agency responded on August 30th requesting the submission of a Technical Memorandum comparing the historical groundwater discharges at the P-Chem Plant with the flow rates from the individual extraction wells. The comparison was intended to be used to determine the appropriate percentage flow difference that should trigger an alarm signaling a problem with the GMCS during system operation. That comparison was submitted on September 12th.
- Comments on the Operations and Maintenance Plan that was submitted to the Agency on June 21, 2005 were received on September 20th. Those comments are being reviewed and responses will be prepared and submitted.

Groundwater Treatment

- For the entire month of December, the system was operated to maintain the total pumping rate equal to the computed inflow rate, based on the average of the gradients measured in four pairs of piezometers placed immediately upgradient of the Site R landfill. With the exception of December 1st and 2nd, the control system was programmed to operate wells EW-1 and EW-3 at the same pumping rate, with well EW-2 shut down.
- Well EW-3 was shut down on December 1st and part of December 2nd to allow installation of a float controlled shut off switch that was installed in the valve vault adjacent to the wells as part of a new leak detection system. Identical

switches were installed in the other two valve vaults at the end of November. The leak detection system was tested on December 5th and was placed into operation that same day. While EW-3 was shut down, wells EW-1 and EW-2 pumped equal volumes of groundwater.

- The results for the first quarterly groundwater samples of the performance monitoring wells are being validated. However, the unvalidated results were submitted to the Agency on October 27th. The second quarterly groundwater samples, as well as the first semiannual sediment and surface water samples, were being analyzed during the reporting period.
- The Third set of quarterly groundwater samples were obtained during December.
- Water level and pumping data for the month of October are attached.

Schedule

The Agency is currently reviewing various submissions to determine if construction is complete.

Submittals During Reporting Period

There were no submittals during the reporting period.

Work Scheduled for Next Reporting Period

- Continue pumping and treating groundwater using the new control program.
- Prepare a report summarizing the results of the Second Interim Operating Period and providing recommendations for the operation of the control system.
- Complete validation of the results of the first quarterly groundwater samples from the performance monitoring wells.
- Complete the analyses of the second quarterly groundwater samples from the performance monitoring wells and the first semiannual sediment and surface water samples and begin validating these results.
- Analyze the third quarterly set of groundwater samples from the performance monitoring wells.
